Two years or so ago, I found out I've actually been kinda 'crazy' all my life with SLPE (schizophrenia-like psychosis in epilepsy). So, I'm looking at this both as patient and professional as well as somebody who just loves feelgood movies.So first things first, without spoiling anything, this is not [[ASIN:B00004CX8I One Flew Over The Cuckoo's Nest [DVD] [1975]]] or [[ASIN:B0002Z9WD4 Girl, Interrupted [DVD]]] in which Mental Illness is something tragic but nor does it gloss over mental illness, making out that depression is just something you can get over (or maybe it is, but many people do just have a single episode of depression and recover while others undergo episode after episode after episode).As I hinted though, this is a feelgood movie. I don't know about New York, I visited Bellevue Hospital exactly once when I was in a previous job and then I was talking about volunteering, not mental health, but in England, if an adolescent psychiatric unit was forced to close for weeks and sixteen year olds had to be treated on an adult ward, the media would be on the Government's back and the Secretary of State would be on the NHS's back and Something Would Be Done.This is not a movie about mental illness though. It's about adolescence and as such, it works beautifully. Here a boy who has grown up following a career path designed by his parents and his friends is finally learning that the only way to choose a career path that's going to make you happy is to choose your own. It's a feelgood movie and it's a good one.By the way, I should note that the scene before the opening credits is a bit of a trigger for me because waaaaaaay back when I was nnineteen, something very similar happened to a friend of mine. To give details would be a bit of a spoiler so I'll just say that my friend's father had a similar interest in his bicycle.2 people found this helpfulAlex WalkerReviewed in the United Kingdom on 30 November 2018Really goodVerified purchase2 people found this helpfulSimon says...Reviewed in the United Kingdom on 25 March 2015Beautiful filmVerified purchaseOne person found this helpfulPatriciaReviewed in the United Kingdom on 03 December 2017Original.Verified purchaseOne person found this helpfulM-RevReviewed in the United Kingdom on 29 January 2017Wonderful movie, not just funny but also warm and life-affirmingVerified purchasePinkyReviewed in the United Kingdom on 18 December 2013enjoyed this filmVerified purchaseOne person found this helpfulmyheart78Reviewed in the United Kingdom on 08 June 2016PoignantVerified purchaseOne person found this helpfulcookie crumbleReviewed in the United Kingdom on 03 March 2017Serious subject sensitively handledVerified purchaseSee all reviews Altadefinizione » 5 Giorni fuori - It's Kind of a Funny Story When watching movies with subtitle. When he realizes he's suicidal, he checks himself into the psychiatric ward of a hospital, thinking they'll do an observation, help him, and send him home in time for school the next day. Once in, however, he must stay for a week; the juvenile ward is being renovated, so he's in with adults as well as a few youths. Bobby, a man with a young daughter, shows him around; Craig notices Noelle, about his age. He tries to keep his friends from finding out where he is. He draws, goes to therapy, sings, helps Bobby rehearse an interview. Is this the stuff of insight? —mental illnessfear of failuredepressionbased on novelfriendship66 morePlot summaryPlot synopsis Kind of nice that Hollywood can still offer a non-commercial, very moving film like this oneCraig (Keir Gilchrist) is depressed. Although his parents (Lauren Graham and Jim Gaffigan) are nice, they are a mildly over-achieving duo who try to gently push their teenage son in a certain direction. This means going to a competitive high school and following a specific curriculum. But, even though Craig is quite intelligent, his stress level is very high and he dreams of "jumping off a bridge". One morning, before sunrise, he sneaks out of the house to contemplate his own suicide but ends up going to a hospital emergency room. The teen insists they admit him. They do. However, the adolescent ward is undergoing renovations and doesn't have room for Craig. Instead, he is placed in the adult psych ward, with a nearly catatonic roommate, Muqtada (Bernard White). In short order, Craig wants to go home but his new shrink, Dr. Eden (Viola Davis) says that is impossible, he must remain for five days. Fortunately, he soon makes friends with an affable patient named Bobby (Zach Galifianakis) and casts his eye on a lovely young female Noelle (Emma Roberts), who bears telltale scars on her wrists. These three strike up a friendship, with Bobby schooling Craig on how to "dress up like an employee" and leave the ward, at least temporarily! It is quickly evident, however, that Bobby has some dark secrets, as does Noelle, and Muqtada seems to be going nowhere fast. Can Craig get the help he needs, even as he helps others? This is a lovely film which highlights the topic of mental illness in a sensitive, intelligent way. Yes, there are patients with more severe troubles than others but all remain part of the human race, as shown here. The cast is great, with Gilchrist doing a fantastic job as the film's main character. Galifianakis, Roberts, Davis, and especially White, do great work too, as do all of the lesser actors. The setting is fairly limited, as most of the action takes place in the hospital, and the costumes are suitably drab, although Roberts looks very pretty in whatever she wears. Then, too, the script is comically insightful while the direction and camera work are quite nice. All in all, if you are hoping to watch a great film that touches the heart, with depth, view this one kind of soon.See detailed box office info on IMDbProSuggest an edit or add missing contentWhat is the Hindi language plot outline for It's Kind of a Funny Story (2010)?
